RE: Review of COVID-19 Operations Plan

Brian & Geoff,

I am writing to notify you that **Panic Point's COVID-19 Operational Plan** for the provision of reduced-capacity operation of your Haunted Attractions has been reviewed and **APPROVED** by the Franklin County Health Department.

This review takes into account: your detailed written plans for assuring the safety of your staff, actors and patrons; a site review by the Franklin County Health Department (FCHD); detailed review by the FCHD on how the written plans would be executed during resumed operations; and voluntary additional improvements to Panic Point's plan to improve the flow of patrons into and out of the attractions during operations.

As of the date of this letter, Panic Point's plans meet or exceed requirements under all current COVID-19 related North Carolina Governor's Executive Orders and is in compliance with current guidance from the North Carolina Department of Health and Human Services (NCDHHS).

The Franklin County Health Department (FCHD) wishes to convey our deep appreciation for Panic Point's commitment to opening your business in a responsible and safe manner. FCHD will continue to update your organization on any changes in Executive Orders or NCDHHS guidance that may develop prior to your facility opening, to ensure you continue to meet or exceed all COVID-19 related requirements. Thank you again for your dedication to the health and safety of Franklin County residents and businesses.

Sincerely,

A handwritten signature in blue ink, appearing to read 'S. LaVigne', followed by a long horizontal line extending to the right.

Scott S. LaVigne, MSW, MBA
